What this is

3 quick insights

- Top-end is luxury-driven (e.g., Lamborghini ≈ \$540k avg in Top 10 view).
- Old-year spikes can mislead (1960 median ≈ \$1.50M due to low listings/outliers).
- Km matters, but brand/model can dominate (5,595 km \$51,990 vs 18,300 km \$199,900).
